**NEW GEBERIT SIGMA30 REDEFINES FLUSH PLATES**

**Des Plaines, IL:** Sigma30 is the latest addition to the Geberit family of flush plates for Sigma in-wall toilet systems. An award winning European design, the Sigma30 is available in two versions: an elegant single-button model with stop-and-go flush that stops flushing at a touch and a water-saving dual flush model with two large, rectangular buttons. Both styles are available in a range of finish options to match any décor.

The stop-and-go flush model offers four finish options, a large button for easy flushing and is made of durable die-cast zinc. The water-saving dual-flush model offers six color options and is made of high-quality injection-molded plastic.

“Geberit offers architects and interior designers the widest range of flush plate styles available for maximum creative freedom. Once the in-wall system is installed only the flush plate is visible, so the flush plate design plays a key role in the overall look of the bathroom,” says John Fitzgerald, Vice President of Marketing for Geberit North America.

Geberit flush plates combine visual elegance with smooth operation and are available in a wide range of flawless finishes and styles. The Sigma Series offers the widest range of options available from any in-wall toilet system manufacturer.

Geberit North America is part of the Geberit Group, a European market leader and global provider of sanitary technology. Located in Des Plaines, Illinois, Geberit North America provides concealed tank and carrier systems for wall-hung and floor-mounted toilets and fixtures. Geberit systems improve the look of any bathroom by hiding the unsightly toilet tank. Replacing a standard tank and toilet with the Geberit system results in more usable space, improved hygiene and better accessibility. The unique dual-flush valve saves water and is practically maintenance free. Geberit also offers cable-controlled bath waste and overflows in a variety of designer finishes. Critical working parts are outside the waterway, ensuring years of trouble-free operation. As European market leader, the Geberit Group is a global provider in the area of plumbing technology with sales of CHF 2.6 billion and more than 12,000 employees in over 40 countries worldwide.

For additional information, contact Geberit North America at 2100 South Clearwater Drive, Des Plaines, Illinois 60018, or call 800-566-2100.
