### **GEBERIT REVISES *INSTALLATION SYSTEMS PLANNING GUIDE***

**Des Plaines, IL:** The newly revised *Installation Systems Planning Guide* from Geberit is intended for anyone involved in selling, planning or installing Geberit installation systems. Outlined are typical design scenarios, including specification considerations, recommended installation examples, methods and products. The 12-page guide also provides a sampling of multiple water closet configurations and system components and offers expanded ganged configurations and installation examples.

“The revised guide with new drawings will help designers, architects and homeowners understand the preliminary considerations necessary to begin installation of in-wall systems, such as seat height and mounting dimensions,” says Ronn Jefferson, product manager for Geberit. “Convenient QR codes in the brochure can be scanned with a smartphone for direct access to videos and other helpful information.”

Download the Geberit *Installation Systems Planning Guide* at:  
<https://www.geberitnorthamerica.com/local-media/brochures/geb6233-installation-guide.pdf?lang=en> or call 800-566-2100 or visit [geberit.us](http://geberit.us) to request a copy.

For additional information, contact Geberit North America at 2100 South Clearwater Drive, Des Plaines, Illinois 60018, or call 800-566-2100. You can also visit Geberit North America at [geberit.us](http://geberit.us).

The globally operating Geberit Group is a European leader in the field of sanitary products. Geberit operates with a strong local presence in most European countries, providing unique added value when it comes to sanitary technology. The production network encompasses 29 facilities. The Group is headquartered in Rapperswil-Jona, Switzerland. In North America, Geberit provides concealed systems for wall-hung and floor-mounted toilets and fixtures. Geberit systems improve the look of any bathroom by hiding unsightly plumbing hardware. Replacing a standard toilet with the Geberit system results in more usable space, improved hygiene and better accessibility. The unique dual-flush valve saves water and is practically maintenance free. Geberit also offers cable-controlled bath waste and overflows in a variety of designer finishes. Critical working parts are outside the waterway, ensuring years of trouble-free operation. With around 12,000 employees in around 50 countries, Geberit generated sales of CHF 3.1 billion in 2018. The Geberit shares are listed on the SIX Swiss Exchange and have been included in the SMI (Swiss Market Index) since 2012.
