GEBERIT UPDATES *CLEAN DESIGN* BROCHURE FOR COMPATIBLE FIXTURE SELECTION

Des Plaines, IL: The newly updated *Clean Design* brochure from Geberit features updated lists of wall-hung and floor-mount fixtures compatible with Geberit in-wall systems. The 16-page, 4-color brochure is designed to help designers, architects and homeowners find compatible bathroom fixtures from a wide range of manufacturers.

"*Clean Design* helps the reader select a compatible wall-hung or floor-mount toilet with an easy, step-by-step method," says Ronn Jefferson, product manager, Geberit. "No other manufacturer gives you the flexibility of the Geberit system."

Geberit dual-flush in-wall toilet systems deliver up to 20% water savings over standard units, providing more options for bathroom applications that require a reduced flush volume. The systems are available for 2x4 and 2x6 room-height walls and 2x6 pre-wall installations. These systems, when paired with certain toilets, are also WaterSense® certified.

For added convenience, an entire listing of ceramic manufacturers and their fixture dimensions and styles are included. A QR code in the brochure can be scanned from a smartphone and directs the reader to a collection of inspirational design ideas.

Download the Geberit brochure, *Clean Design*, at: <https://www.geberitnorthamerica.com/local-media/brochures/gna7087-1.pdf?lang=en> Call 800-566-2100 to request a copy or visit geberit.us.

For additional information, contact Geberit North America at 2100 South Clearwater Drive, Des Plaines, Illinois 60018, or call 800-566-2100. You can also visit Geberit North America at geberit.us.

The globally operating Geberit Group is a European leader in the field of sanitary products. Geberit operates with a strong local presence in most European countries, providing unique added value when it comes to sanitary technology. The production network encompasses 29 facilities. The Group is headquartered in Rapperswil-Jona, Switzerland. In North America, Geberit provides concealed systems for wall-hung and floor-mounted toilets and fixtures. Geberit systems improve the look of any bathroom by hiding unsightly plumbing hardware. Replacing a standard toilet with the Geberit system results in more usable space, improved hygiene and better accessibility. The unique dual-flush valve saves water and is practically maintenance free. Geberit also offers cable-controlled bath waste and overflows in a variety of

designer finishes. Critical working parts are outside the waterway, ensuring years of trouble-free operation. With around 12,000 employees in around 50 countries, Geberit generated sales of CHF 3.1 billion in 2018. The Geberit shares are listed on the SIX Swiss Exchange and have been included in the SMI (Swiss Market Index) since 2012.
