GEBERIT NAMES JACLYN DERUGERIIS NEW YORK DISTRICT SALES MANAGER

Des Plaines, IL: Geberit North America, a leader in sanitary products, is pleased to announce that Jaclyn DeRugeriis has joined the Geberit team as New York District Sales Manager. Based in New York, she will cover the commercial and residential markets for Geberit in the area. Her responsibilities will include training, developing relationships with key decision makers, servicing key accounts and all sales aspects of Geberit products in the New York market.

“Jaclyn brings years of successful industry sales experience to Geberit,” says Peter Ciambone, Eastern Regional Sales Manager. “She will cover all facets of the New York market including showrooms, the architect and design community, engineers, plumbers and contractors. Jaclyn’s appointment supports the company’s strategic direction, strengthening customer relationships as well as expanding sales support coverage.”

“This is a great time to join Geberit, with new initiatives and products that align with a fast growing market,” says DeRugeriis. “I am excited to be part of the team for such a well-respected global company.”

DeRugeriis joins Geberit with over fifteen years of experience in sales and management positions, including more than ten years of experience in plumbing, manufacturing and showroom management. During this time, she developed new lines, design services and go-to-market strategies, and even established a new commercial plumbing division for an industrial material supplier.

The globally operating Geberit Group is a European leader in the field of sanitary products. Geberit operates with a strong local presence in most European countries, providing unique added value when it comes to sanitary technology. The production network encompasses 29 facilities. The Group is headquartered in Rapperswil-Jona, Switzerland. In North America, Geberit provides concealed systems for wall-hung and floor-mounted toilets and fixtures. Geberit systems improve the look of any bathroom by

hiding unsightly plumbing hardware. Replacing a standard toilet with the Geberit system results in more usable space, improved hygiene and better accessibility. The unique dual-flush valve saves water and is practically maintenance free. Geberit also offers cable-controlled bath waste and overflows in a variety of designer finishes. Critical working parts are outside the waterway, ensuring years of trouble-free operation. With around 12,000 employees in around 50 countries, Geberit generated sales of CHF 3.1 billion in 2018. The Geberit shares are listed on the SIX Swiss Exchange and have been included in the SMI (Swiss Market Index) since 2012.

For additional information, contact Geberit North America at 2100 South Clearwater Drive, Des Plaines, Illinois 60018, or call 800-566-2100. You can also visit Geberit North America at geberit.us.
